C. B. Upton was appointed Crier for the term, and J. K. Wiley, Bailiff.

The following persons were drawn as grand jurors for the present term: Arthur Fable, Moses Hurd, Wm. H. Cason, Levi Anderson, L. O. Henrickson, Jr., Clinton.

Holt, Well & Co. vs. H. H. Snowden et al.; set for trial Monday morning at 8 o'clock.

INCREASING TRADE.—Notwithstanding the complaints about the dullness of our export trade, this city is really doing more in that way than is apparent to most people. There is no rush, it is true, to San Francisco, but the aggregate of our shipments to all ports will compare favorably with those of almost any former year. The Ajax goes once a week, nearly all with full cargoes, while an increasing vessel room and goes away without taking about all she can carry. Besides the lines of steamers to San Francisco, of which there are four now making voyages regularly and allocating, there are several which come and go as they most with opportunity. We have every few weeks a vessel from Australia, between which place and Portland, the trade has grown sufficiently to warrant putting upon the route a first-class bark, to make four or five round voyages in the year. We have this year despatched one or two ships to New York; one, a large one, to Liverpool, and two or three to other ports. The two steamers plying between this port and Victoria and Puget Sound, rarely ever fail to go away well loaded with produce of various sorts, and general descriptions of merchandise. Last year there was scarcely trade enough in that direction to pay the running expenses of one steamer. The increase of business with the Sound country is particularly noticeable. It is not very long, now, to see almost as much activity at the dock when the *Telfair* or the *Wright* is loading for Puget Sound, as when there is a cargo going into a San Francisco steamer. Judging by these indications, the Sound country must have received, this spring, a very healthy impetus to its growth and prosperity.

PLANING PATENT FOR PRAIRIE ROADS.—We learn from Mr. D. W. Frary that a number of agents are about to begin the canvas of the valley counties for the sale of the "Lieb. to me" Perkins' patent for preserving eggs, fruit, etc. We have the most indubitable evidence that this is just what it claims to be—a sure process which is simple, cheap, and may be used with perfect safety by any one. The material to be used may be purchased in any town or village, at a cost not exceeding about one cent for each dozen eggs. It is the only method ever discovered for preserving eggs or fruit, for a long time. Eggs coated with the solution, have been kept perfectly fresh for thirteen months, and all the tests ever made indicate that they may be kept for two years, or longer, just as well as a shorter time. Eggs thus kept, are entirely free from exposure to the action of the atmosphere. The coating closes all the pores of the shell, hermetically, and absolutely, every active principle existing in the atmosphere, while at the same time the meat of the egg remains totally unaffected by the coating substance. Every farmer, poulterer and [illegible] in this State should pay a visit to me." It costs with full directions, and a copy of Frary's "New Poultry Book," only *six dollars*—a sum which any one may save twice or thrice over in one year by being able to keep eggs so as to take advantage of the market.

NOT MUCH!—The Albany *Democrat* says: "We learn that the Board of Directors of the Linn County Agricultural Society have decided to offer a premium of fifty dollars for a velocipede race at the September Fair. That's bully! We suggest that the contestants be required to go the 'long run'—6 best in 11—and that each mile must be made inside of one hour. Won't Cleaveland go after it, though?"

Well, we reckon, not much! Velocipeding for fun may do very well for those who are *extremely* fond of frolic, but for the practical ease of propulsion, we decidedly prefer walking and carrying a forty pound rail. No mile heats on board a velocipede for us, if you please.

U. S. DISTRICT COURT—DEADY, JUDGE.—The following proceedings were had in this court yesterday:

In the matter of Aaron Cohn—in bankruptcy; petition for final discharge; motion for leave to file objections to discharge, argued; motion denied and discharge granted, Dolph for bankrupt; Page for opposing creditors.

In the matter of Muller & Breitano; cause dismissed.

United States vs. Steamship *Pioneer*; set for argument on Friday next at 10 o'clock A. M.

Alfred Crosby vs. Steamship *Geo. S. Wright*—In Admiralty; libel for pilotage; cause submitted. Dolph for libellant; Shattuck for claimant.

The court adjourned until Friday next, the 18th.

GOV. WOODS.—Gov. Woods arrived at this city yesterday afternoon, upon his return from Eastern Oregon. He crossed over the Dalles and Boise military road as far as the summit of the mountains beyond Canyon City, to examine it, as required by law. During a brief call last night he spoke somewhat of his trip, but did not intimate whether he should approve the road. The great heat of the last few days, during which the Governor was travelling over the worst part of the route, induced an illness from which he has not yet recovered. We shall trust that it will be only temporary. He goes on to-day.

FROM VANCOUVER.—The *Register* says: "The ladies of St. Luke's Church of this city will give a festival at Eddings' Hall, on Thursday next. Their advertisement [illegible] tableaux, music, strawberries, ice cream, etc. There will also be a fancy table where one can purchase eggs, hen and anything in the shape of fancy articles. The ladies of the church gave an entertainment last year, which proved a success both financially and socially, and we are glad that a very pleasant time will be had on next Thursday evening, and would advise those who wish to spend an hour or so profitably to attend. The price of admission is fifty cents."

FROM CHINA.—We learn that there are now on the way to this port, two barks from China, loaded with rice and a general assortment of Chinese goods. They are consigned to Tong Duck Chong, who says he has letters informing him of the sailing of the vessels about the 1st of May. Each vessel has about two hundred and fifty Chinese passengers. We could not learn the names of the vessels. They are expected to arrive within the next three weeks.

FOR ALASKA.—Mr. Kapus, Collector of Customs for the District of Alaska, sailed by the steamer *Geo. S. Wright*, last evening, for Victoria. The U. S. steamer *Active*, which leaves San Francisco to-day for Alaska, is ordered to stop at Victoria and take Mr. Kapus to Sitka.

TO LOAD WITH LUMBER.—The schooner *Alaska* has completed the discharge of her cargo, and will, in a day or two, begin to load for a back voyage to Honolulu. The principal part of her outgoing cargo will be lumber.

[illegible]—Commencement is complimented was in progress at Stevie's Island on Sunday. Many from this city went down on that day by the steamer *Ranger*.

The *Commercial* says Mr. M. H. Abbott, late of the Albany *Democrat* has removed to this city, and will become a resident.

The work of laying the foundation of the Odd Fellows' Hall in this city will be begun to-day.

We notice that at Salem the other day, our friend Kane, who makes and vends the Imperial Condensed Soap, had a fair and square trial with it against the Automatic Boiler, and came out ahead.

RAILROAD MATTERS.—The *Commercial* of Sunday has these two railroad items:

The taking of the remainder of the testimony in the rail-road case, by Messrs Mitchell and Hill, counsels for the parties to the suit, was deferred until the 17th of August next, on motion of defendant.

Mr. Joseph Gaston called yesterday morning, and talked railroad a few minutes. He says there are negotiations pending between the company he represents and a railroad contractor, which if successful, will enable the West-Side Company to build their road.

FAST TRAVELING.—Mr. W. A. Buchanan, who left Portland on the 2d inst., writes us from Indian Creek Station on the Central Pacific Railroad, June 7th, that he arrived at that place in *four days* from Umatilla. He found the stage road in excellent order and the accommodations better than one could have reasonably expected. The stage arrives at and departs from Indian Creek; in connection with the railroad trains. Indian Creek is a station having four houses at present. Mr. Buchanan was exactly six days from Portland to the railroad.

PORTLAND LIBRARY.—The following new books have been added to the Portland Library: Madam De Stael, an historical novel, by Amely Bolte; Recollection of Men and Things at Washington, by Goebright; Curse of Gold, by Mrs. Stephens; Agnes Wentworth, by Paxton; The Switzerland of America, by Bowles; Anna Beterin, by Craven; Breaking a Butterfly, by author of "Guy Livingston;" The Ingham Papers, by Hale; By Ways of Europe, by Bayard Taylor; The Rifle and the Hound in Ceylon, by Baker; Lost in Paris, by Holder.

U. S. CIRCUIT COURT—DEADY J.—This court had a session yesterday, Judge Deady presiding. The following were the proceedings.

John E. Cash, et al. vs J. A. Davenport, et al.; in equity. Argument on motion for leave to amend bill of complaint; motion allowed and amended bill ordered to be filed on or before next rule day. Hill and Page for complainant; Chapman for defendant, Davenport.

Adjourned till Tuesday, at 10 o'clock A. M.

ITALIAN STATUARY.—Mr. A. B. Richardson, Auctioneer, has just received per steamer "*Oriflamme*" a very large assortment of Italian Statuary, direct from *Florence, Italy*, and will offer the same at public auction in a few days. The Statuary is from the celebrated house of Raffaello Bobyneni. Advertisement will appear in *Oregonian* in a few days.

FIXED TO STAY.—Our friend W. R. Sewall, landlord at the Cosmopolitan Hotel, has gone and got "fixed to stay"—married. Sewall is sensible. Long life to the Sewall *family*.

SAILED.—The steamship *Geo. S. Wright*, Langdon, Commander, sailed at 6 P. M. yesterday, for Victoria and Puget Sound. She carried several passengers and a heavy freight.

SARGENT CUT.—We were informed last evening that Mr. John P. Walker yesterday cut his leg with an axe, inflicting a terrible and serious wound. We did not learn any particulars.

ILLUSTRATED.—The Vancouver *Register* comes this week profusely illustrated, in the regular cock-a-doodle-doo style.

PIG IRON.—A scow loaded with pig iron was floated alongside the *Oriflamme* yesterday. The iron—about 200 tons—is to go by the steamer to San Francisco.

"LIFE SAVINGS AND LOAN BANK."—The people of the city patronize the OREGON DISPENSARY in order to save money and procure a loan of longer life by using our FRESH, PURE and RELIABLE remedies, which are daily compounded by the MOST RESPECTABLE and TALENTED PHYSICIANS in this city. Everybody takes a spell in patronizing our Store and thereby obtain DIVIDENDS by purchasing not only their medicines but also their toilet articles and other items, too numerous to mention. People say it is a pleasure to get sick and be cared at the Oregon Dispensary.

CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 635 AND 637 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.
The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.
BEWARE OF COUNTERFEITS.

The Hours of Labor.

It was no doubt the intention of Congress in enacting the eight hour law, to provide that in the case of workmen in the employ of the Government, eight hours shall constitute a full day's labor, and that there shall be no reduction of pay in consequence. The act has been so interpreted by the President, and in order that it be observed accordingly has been made by his proclamation. The workmen at the Dalles who struck last week for the eight hour system are therefore undoubtedly entitled to its benefits. This act is equivalent to an increase of one-fifth in the wages of Government workmen over the wages paid for labor by the custom of the country. The wisdom of Congress in passing such an act is very questionable; but as the act has been passed it is but natural and right that the workmen should seek to reduce the hours of labor in conformity with it. The true theory is to pay the workmen by the hour, and then let every man have a chance to work a greater or less number of hours, as he may see fit. This is what the labor problem is coming to. There are multitudes of energetic and industrious men who would profit by the opportunity which this system would afford them. After all, the real problem with the mass of mankind is not how to make the hours of labor fewest, but how to labor the greatest number of hours. This is a free country, and the question how long a man ought to labor in a day is one which every man ought to decide for himself. It is the right of any laborer to say that he will work only eight hours a day; but it is equally the right of the employer to say that labor must continue in his factory or on his farm for ten hours. This is the right of both parties. If men can make a living by working eight hours, or any less number of hours per day, and are satisfied with their gains it is their right to work on this principle. Nobody can object. But the employer has a right to say that if the laborer does not work full hours he will not give him full wages. The matter is simply one of agreement between the parties. The conclusion is, as a recent writer has observed, that no law ought to regulate labor at all. It is a direct interference with the individual rights of employers. It can result in no good, because the laws of nature cannot be controlled by human laws. The price of labor, especially artisan labor, depends on the consumption of products, the demand for them, and the price the consumer is willing to pay. It will be in vain for workingmen's associations to attempt the control of the labor market, as is sufficiently proved by their history. We say this, with no want of sympathy with the laboring men, for we would rejoice to see every workingman have more time for home duties, and for his own education. But weary and hard as his life may be, we know of no remedy for it, but by becoming an independent land owner, which we would urge every workingman to aim at. The opportunities for independence in this county are very great. Good lands are offered by the Government if for nothing, and for a little more, the lands on the railroads may be secured. Let every man aim at a home and independence.

The Ward Meetings.

The Republican primaries, or caucuses, preparatory to the city election next week, are called for Wednesday evening. Time will be given to receive and record the entire Republican vote. Let every Republican in the city attend these meetings. Do not stay away needlessly, and afterwards find fault with results which your attendance and personal efforts might have made otherwise. Choose good men for delegates. Select men of known character for intelligence, integrity and prudence. Allow every man to be heard and let every man's rights be regarded. By acting this course you shall nominate a ticket which will be creditable to Portland, which will satisfy the aspirations of the people, which will command the whole strength of the party, and which will be triumphantly elected. We need not enlarge upon the importance of carrying this election. If we succeed now, as we may do if we try, we shall be reasonably certain of success in the great contest of next year. Last fall on a full vote of both parties we carried the city by 120 majority, and we may do even better now if we nominate a good ticket and work for it with a will. The Republicans of Washington Territory have just shown us what energy and determination can accomplish. Let us emulate their example. Let us prepare the way for a complete victory in this county and State next year. For the result in Multnomah county will have much to do with determining the result in the State at large. The Republicans of Portland will be grossly culpable if they fail to carry the city now, when they may do it just as well as not. In order to harmony and unity of action, let us have a general turnout at the ward meetings and choose delegates who will select a ticket worthy the support of the people of Portland.

In General.

It hasn't suited either of the Democratic organs of this city to respond to our showing that the Government is spending a great deal more money in Oregon than it is raising by taxation. This is a matter they don't care to talk about further. 'Tis wise in them to drop it.

The London *Standard*, Tory organ, in an article on the *Alabama* claims has the following, in which the old Tory spirit flashes out curiously: "The educated classes of England sympathized with the South, and we are a nation in which the masses are only followers." The party in England which talks in this way is the party which the so-called Democracy of America take sides with and admire.

The Eugene *Guard* is terribly incensed against E. A. Pollard for writing his "Life of Jefferson Davis." The *Guard* is an ardent admirer of "that illustrious statesman and peerless gentleman," as it denominates Jeff.; and it assails Pollard with an abundance of abusive epithets because he questions the wisdom of Davis's administration of the affairs of the Southern Confederacy. If the *Guard* should write a life of Jeff. it would be sufficiently laudatory.

Many of the soundest Republicans of Missouri favor the removal of the restrictions which the present Constitution imposes upon men who, during the war, favored the cause of the rebellion. At the same time they claim the enfranchisement of colored men, a thing which the ratification of the XVth Article of the Federal Constitution will effect, at any rate. The immense immigration from the Middle and Eastern States into Missouri, a large majority of whom are Republicans, is no doubt strengthening the party of the Union in that State that they can afford to be magnanimous to those who, eight years ago, would if they could, have dragged Missouri out of the Union.

The *Herald* says its party got no help in Washington Territory except from "a few official Republican soreheads." This is an unkind cut; the "official soreheads" undoubtedly did all they could to help the Democracy. It will be seen that the fact of their treachery is confirmed by Democratic authority. But their Democratic allies should not blame them for not exerting greater influence. It was not their fault that the Republican party was not defeated.

In the vigorous campaign which seems to be going on in Virginia, special war is waged over the question of mixed schools, for white and black children together. The pending Constitution remits this question to the Legislature. Some of the Conservative papers declare that the "first families" will permit their children to grow up in ignorance rather than send them to school with poor trash, white and black; while on the other hand some of the colored orators declare that they have serious objections to "sending their sons and daughters to associate with rebel children." The argument seems to be about equal on both sides.

The San Francisco *Bulletin* of June 3d states that within a few days of that date 58,516 fur seal skins had arrived at that port from Alaska by the bark *Cyrene* and the steamer *Alexander*. These cargoes, it is said, are worth not less than half a million dollars. Both are consigned to the successors of the Russian American Fur Company. Many of these skins, it is represented, are taken from female seals and "pups," contrary to the rule which has been so widely promulgated. Other shipments go direct to Honolulu, and are thence shipped to Europe. A considerable part of the shipments which have recently arrived in San Francisco, are reported to have a European destination.

Very Rich.

The following which appeared in the Olympia *Standard* just before the election, is supremely rich when read in the light of facts:

The following telegraphic dispatches from Vancouver, were received by us yesterday afternoon, which shows quite a different state of feeling in Clark county to what is claimed by Garfielde's friends. We are not surprised at this news, because we have all along believed that Clark county would give Gov. Moore a good majority. Roll on the good work:

VANCOUVER, June 4, 1869.

Editor Standard: Fletcher will probably recover. The examination now progressing establishes beyond doubt that Fletcher and sons, urged on by Garfielde men, were solely to blame for the disgraceful affray and its unfortunate results. The result of the examination is proving very disastrous to the whole Republican ticket in Clarke county. A majority for Moore in Clarke county is now certain.

Pacific county is also certain to give a small majority for Moore. Moore's majority in the Columbia river counties, west of the Cascade mountains, will be not less than one hundred and seventy-five. East of the mountains is sure to give the Governor three hundred and fifty majority. Garfields men here throw up the sponge.

By Balloon to Europe.

Under this sensational heading the New York *Tribune* of May 28th, gives a full description of the preparations by M. Chevalier for his aerial voyage to Europe about the middle of July. The following is a condensed statement:

He intends to save the gas which usually escapes when too great an altitude is reached, by storing it in a "compensator balloon," to be restored to the main balloon when the gas has contracted so as to admit it. By means of a long rope which will usually trail on the surface of the sea, he is to accomplish several objects. It will enable him to note the height and direction of the balloon, will serve as ballast, to be thrown out when the balloon is to low or is covered with water from the clouds, and can be drawn in again so as to weight it when it rises too far above the earth. M. Chevalier has an abiding faith in the northwest current, which he feels sure will land him safely in Europe. His balloon, L'Esperance, is ninety-five feet high, sixty feet in diameter, and has a buoyancy capable of supporting eight tons. He has made a great many ascensions and is one of the most accomplished aeronauts in the world.

OREGON.

Judge Boise will deliver the oration on the Fourth at Corvallis and John Burnett, Esq., of Corvallis, will deliver the oration at Dallas.

Albany will celebrate the "Fourth" on Friday, July 2d. What enterprising town will get ahead of Albany by naming an earlier day—say some time in June?

A Eugene paper says: Mr. H. G. Hadley arrived home on last Saturday from San Francisco where he had been for several months, disposing of a lot of fine horses taken from here last fall. He reports the horse market in California as rather dull at present, having been over-stocked.

The *Guard* has the following in regard to the schools in Lane county: We are informed by T. B. Hendricks, Esq., Superintendent of Common Schools, that he has visited thirty-eight district schools during the present season. The aggregate attendance was 1,162 scholars, being an average of about 31 scholars for each school. Mr. H. informs us that in most districts he has visited lively interest in school matters seems to exist.

Says the Roseburg paper: An agreement has been entered into between the Excelsior Mining Co., composed of men of this county, and J. Knott, J. A. Veach and Richard White, by which the gentlemen last named agree, for an interest in the Excelsior lead, to make a thorough and scientific examination of that lead, and to make a full report of the same, within a reasonable time. This examination will be likely to furnish something reliable with regard to Bohemia stock.

From the Eugene *Journal*: Two parties of surveyors have left this place during the week on contracts east of the mountains. One party, Messrs. D. B. Thompson, B. J. Pengra and John B. David, go to the John Day river country on a contract of $20,000. The other party, Messrs. H. F. Stratton and Wm. Pengra, are to survey the country lying between the Klamath Marsh and Goose Lake. The appropriation for this State for this year amounted to about $40,000, half of which will go to the first named party and the remainder will be about equally divided between the last named party and J. H. McClung, who has been in the field for some time. It has been expected that the lands on the McKenzie river would be surveyed this season, but it is not likely now that this will be done as the appropriation will not probably be sufficient.

HIGH RATES AND FARES.—The following appeared in a late number of the Chicago *Post*:

The modesty of the officers of the Central Pacific Railroad in exacting ten cents per mile for transporting passengers, and $105 per ton for freight from Sacramento to Promontory Point, exceeds, if anything, the modesty of the same company in exacting unheard of subsidies and bonds wherewith their road was built free of cost, and an opportunity afforded them to still further outrage the public. The Pacific road was built with the people's money, and the people are likely to pay dearly for their generosity, unless Congress, on the first day of its next session, shall put an end to this most intolerable monopoly. The tariff exacted by the Central Pacific road is simply monstrous, and cannot and will not be tolerated.

After compelling the public for years to pay the above prices, the company now feels indignant about being reminded of the fact. The *Post* is informed that this grasping corporation has lowered its prices slightly, and it must not say "ten cents per mile" and "$105 per ton" any more, for fear of "aggravating the President" and other parties interested.—*Sacramento Union*.

GENERAL NEWS ITEMS.

Congregationalism has had a rapid growth in Illinois. Twenty five years ago there were less than a score of churches of this denomination, and there are now 200.

Governor Hoffman, in refusing to sign the registration act passed by the New York Legislature, has furnished fresh evidence of the fact that there, as well as everywhere, fraud at the ballot box is the best hope of the Democracy.

Colonel Jewett has been calling upon the President "to do justice to England and promote the cause of peace." He told Gen. Grant what some Englishmen had said to him during the war, and left his speech in manuscript. After this interview the President wisely took a rest.

An act of Congress, at its last session, applicable to the District of Columbia, recognized, to the fullest extent, the absolute right of the married woman to her separate property, whether acquired before or after marriage, and conferred upon her the right to sue, or be sued therefor, in her own name.

Five and a half columns of the Memphis *Appeal* are occupied with a description of the ceremonies at Elmwood, on the 11th of May, on the occasion of "commemorating" the Confederate dead. There was an "oration," a "poem" and an "ode," all of bitter hatred of the Federal Government.

Brick Pomeroy's New York *Democrat* is neither appreciated nor sustained, and he is disappointed but spunky. He writes to his New York manager "Go right straight on with the fight in defense of principles. Bankrupt me, if necessary, and when every dollar I have shall be lost, and when we can no longer publish a newspaper, thank God we can shoulder a spade and earn a dollar a day working on some railroad."

The recent report of the Secretary of the Treasury informs us that there are 1,600 National Banks. The abstract of these Banks shows an aggregate of resources and liabilities of $1,516,303,000, including loans and discounts, 650,000,000; specie, nearly $8,500,000; legal tender notes, $80,500,000; three per cent. certificates, $51,000,000. The capital stock is over $420,000,000.

THE WEST.

Strawberries have been selling at Boise City at the moderate rate of a dollar and a half a pound.

The Central Pacific Railroad has granted free passes to the members of the Right Worthy Grand Lodge of Odd Fellows, which meets in San Francisco in September next.

The legal rate of interest in California was changed by the act of March 30, 1868, from ten to seven per cent. per annum; but, by express contract, any higher rate may be charged and collected.

The Chicago merchants expect not only to supply Utah and Nevada with merchandise, but to establish agencies in the interior of California, and undersell by 10 to 12 per cent. the merchants of San Francisco.

At Reno last week an Indian had his legs cut off by a railroad train. He was cared for by the citizens, who called in a surgeon, and he administered morphine, hoping to alleviate his sufferings. After lingering some hours in great agony, he died.

Six "last ties" at the junction of the Pacific railroads have been whittled up and carried away for momentoes. The Sacramento *Reporter* says the demand for splinters is increasing, and so is the supply. Another load of ties has been received.

Says the Yreka *Journal*: The Ku Klux organization for persecuting Chinese employed by white men, has not yet reached Siskiyou county, nor is it likely to, from the fact that so many Democrats employing Chinamen, that the Democracy cannot afford to countenance it among us.

A stairway will be built to the top of Crystal Creek Rock, in Scott valley, (Cal.,) for the accommodation of those who have the curiosity to reach its summit. It will be in readiness for the 3d and 5th of July. Fifty cents is the toll, and children free, if any person is along to care for them.

The publication of the *El Dorado*, a woman's weekly paper started out two or three months ago in San Francisco, has been suspended. Its interests have been merged we believe, says the *Times*, with the *Mercury*, which is now edited by Miss Pitts, and which is devoted especially to the advancement of the rights and interests of women.

A party of four left the Klamath river last week, to prospect the headwaters of Sprague river, above Fort Klamath, for gold. Emigrants found good prospects in that section several years ago, but the difficulty in finding the reported spot, together with the fear of Indian hostility, is all that prevented the establishment of a flourishing mining camp among the foot hills of the Blue Ridge mountains.

Some Chinese capitalists are carrying on shoe and slipper factories in San Francisco. One at the corner of Sacramento and Battery streets employs forty Chinamen and lads, with three Wheeler & Wilson sewing machines. The factory turns out about 1,000 pair slippers per month. The uppers are chiefly made of carpet, or of sheep skins tanned by Chinese labor. The Chinese shoemakers in San Francisco make at least 5,000 pairs of slippers per month.

THE "ALABAMA" CASE.—The expressions of alarm contained in Goldwin Smith's letter excite a quiet smile in the United States, while they have aroused the ire and irony of some British journals. There is positively no feeling in the matter among Americans. We have not been pleased with Roverdy Johnson's management, and have very flatly said so. We dislike his jumbling of the *Alabama* claims with those of British blockade runners. We prefer to see each question discussed and disposed of on its own merits. Mr. Motley has simply been instructed to say nothing on the subject. If our reticent policy does not suit the British Government it can empower a minister to come here and settle affairs, or can adopt that other policy of letting the question remain in its present form, and allowing this country to do to England as England did to us during the rebellion. Americans are content with either result, and are giving themselves no sort of trouble about the furious onslaughts of the British press, the utterances of Mr. Sumner, nor the alarmed condition of Goldwin Smith's mind. Nevertheless, it must be admitted that the constant ebullition on the other side of the Atlantic, and the unceasing tirades of the British journals is doing much to unsettle business, and has acted with depressing effect on the sale of our bonds in Europe. The blustering talk about war is doing no good, least of all to Great Britain. No one in the United States either expects or desires a rupture with England; but it is as certain as death and taxes, that if England goes to war with any other country before the *Alabama* question is settled, the whole power of the American Government will not suffice to prevent the fitting out of privateers to prey upon her commerce. She knows the alternative and can take her choice.—*S. F. Commercial Herald*.

CENTRALIZATION IN JAPAN.—The Yokohama *Times* makes mention of a singular revolutionary movement in Japan, initiated last April by Satsuma, Tosa, Chosiu and three other principal Daimios. It contemplates nothing less than the voluntary and complete surrender by these princes of all their civil powers into the hands of the Mikado. They profess to do this to the end that the imperial ruler in theory may become such in fact, and that the government of the Empire may thereby be centralized and greatly strengthened. Hitherto, for six hundred years, these Daimios have exercised certain privileges of sovereignty within their own dominions, akin to those accorded to the leading feudal lords of Germany and France before the reign of Charles V. and the administration of Richelieu. They now offer to voluntarily lay down these ancient privileges of their houses, and surrender all things in the nature of sovereignty to the Mikado, including the great bulk of their princely revenues. If this report be true, it argues much in favor of the patriotism of the Japanese nobles, who so far put aside personal avarice and ambition for what they honestly conceive to be the public welfare. Their example, pagan as it is, commends itself now to that large body of nobles and pious Episcopal Bishops and priests in England and Ireland, who do not hesitate to risk the chances of a civil war in urging the House of Lords to defeat the measures taken by the House of Commons, and sanctioned by the majority of the people of the British realm, for the disestablishment of a hated and oppressive oligarchy.

Good conduct at Sunday School seems to be differently rewarded in different localities. In a certain Episcopal Church at San Francisco, for instance, each scholar that is in his place before opening school receives a ticket for Punctuality. Our correspondent having, as was his habit, come early to school one Sunday, observed a class of six or seven boys, aged from seven to twelve years, all of respectable parentage, throwing dice for who would win the whole lot of Punctuality tickets. He stood aghast at such depravity, in such a place, on such a day—especially when one urchin roared out: "Sixes! I've won, *give us the pool!*"

SINGULAR CHANGE.—Before the negroes of the South were emancipated it was a standing argument with the chivalry Democracy and their Northern hod carriers that Sambo wouldn't work short of the lash. Now, however, since he has become a freeman, they are grievously offended whenever somebody gives him a chance to work, and call it opressing the whites. Two blacks were last week appointed to laborious posthons as bricklayers in the Washington Navy Yard. Instantly there was a storm among the bricklayers, and they all threatened to "knock off" if the blacks were not compelled to quit work. To-day the "Joiners' Union" is on the rampage because a negro has been allowed to go to work as a joiner in the same Navy Yard, and the white joiners feel themselves much oppressed that a poor and industrious black man should have the privilege of earning his living with Uncle Sam as his master. This is sheer nonsense, and the sooner white man learn that fact and how to accommodate themselves to the new and more rational order of things, whereby all men are alike protected in the right to work, the better for all.—*Sacramento Union*.

VALUABLE TESTIMONY.—The following recommendation comes from a source of such well known and indisputable character, that it requires no comment beyond its publication:

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. H. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. H. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO JUNE 13.

Washington News

The Secretary of War has issued an order directing that all enlisted men in general service, detailed for duty as clerks, and other clerks in the War Departments and Bureaus, not authorized by law, shall be discharged on the 15th inst., with leave of absence for one month. By this order, between three and four hundred men, who receive the compensation of nearly $100 per month each, will be discharged.

Col. O. A. Mack, aid to the Secretary of War, vice General Polonza, will assume his duties on Monday.

Brevet Major General Carroll has been retired on full rank as Major General.

Emory having declined the appointment of Governor of the Soldiers' Home, the official order assigning him to that duty is revoked.

Orders have been addressed to Generals Sheridan and Schofield to treat the Indians on the four great reservations as hostile, and proceed against them accordingly, with the view of protection to the citizens of Kansas and elsewhere on the frontier.

Representations from Cuba were received to-night. They state that there has been several skirmishes between the Spanish forces under Gen. Lesca and the Cuban forces, resulting in compelling the Spanish to fall back on Trinidad, where they await reinforcements. The Cubans were preparing to follow up this success and attack the Spanish forces.

WASHINGTON, June 13.—Commissioner Delano has made a decision on the question submitted by the Board of Brokers of New York, as to their liability to pay a tax of one twentieth of one per cent. upon sums received by them for negotiations of sales. It is said he decides that they are liable as commission merchants for all sales in excess of $500,000 made by or for them, at the rate of one dollar for each thousand, except those made through other wholesale dealers who are taxed as such and sell on commission, and consequently are liable on sales made through commercial brokers. Commercial brokers are also liable upon all sales negotiated by them at the rate of fifty cents on each $1,000, excepting those made by or for another broker.

The Secretary of War, in reply to a dispatch from Adjutant General Townsend, says to suspend his order for the discharge of clerks in the War Department until his return to the city.

Should the present military force on the frontier be inadequate to promptly quell the existing difficulty with the Indians, authority will be conferred upon Gen. Schofield to raise volunteers for this purpose.

The Bureau of Internal Revenue has received authority from the War Department to use U. S. troops in North Carolina when necessary to carry out the Internal Revenue law. This grows out of the fact that there is a large number of distilleries in that State the proprietors of which continue to evade the law, and put the revenue officers at defiance.

New York News.

NEW YORK, June 12.—General Fremont was a passenger by the *Ville de Paris*, to day, for Europe; also, a large number of the members of the French Opera Troupe.

Judge Blatchford, in a decision to-day, sustains the action of President Grant in revoking the pardon of Jacob Moss, the Deputy Collector, who will now be obliged to serve out his term in the penitentiary.

The steamer *Florida*, which has been under surveillance in Philadelphia as a supposed filibustering craft, has been released under bonds and sailed for Boston.

The steamer *Quaker City* has again been seized and libelled at the instance of the Hayitian Government.

Twenty-four persons have mysteriously disappeared in this city within two weeks.

$2,000 worth blank of arms have been shipped to the Turkish Government, who are said to have also purchased several revenue steamers here.

The Cuban War.

WASHINGTON, June 12.—Information is received that two expeditions numbering 600 safely landed in Cuba, and joined the revolutionary forces. Desertions from the Spanish forces are increasing. There are frequent collisions between the Spanish troops and the volunteers, and the difficulties between these parties are irreconcilable. The Cubans have organized their forces into two army corps, one being under Gen. Jordon. Engagements are daily expected. The Cubans are confident of victory. Jordon has 2,000 Americans in his corps.

Indian Affairs.

The Commissioner of Indian Affairs has directed that Indians who fail to come in and locate for permanent abode upon reservations, will be subject wholly to the control and supervision of the military authorities, who, as circumstances may justify, will treat them as friendly or hostile. Care should be taken to inform the Indians claiming to be friendly that they must not violate laws of the United States by acts of murder, theft or robbery. For such crimes the tribes will be held responsible, and their annuities will be held till the offenders are delivered up to be properly punished.

Applications for the use of military against unlawful members of any friendly tribes will not be granted unless a determination to commit outrages be too strong for the Superintendents and Agents to subdue with the means at their command.

Presents of goods or provisions will not be given to roving Indians or Indians in hostility to the Government, but when they come in and locate on reservations, with the view of becoming friends of the Government, and cultivating the arts and habits of civilized life, every assistance practicable in the way of clothing, provisions and agricultural implements are to be given them.

Sons of Temperance.

The National Division of the Sons of Temperance have adjourned. The next meeting will be held in New York. A committee was appointed to prepare a memorial asking Congress to pass a prohibitory law. The question of the admission of colored members was not considered, it being left to the State and Territorial divisions.

Canadian Affairs.

OTTAWA, June 12.—In the House of Commons last night, Rose moved that the House go into a Committee of Resolutions, respecting an additional subsidy to Nova Scotia. Blake opposed the motion, contending that the General Government had no power to alter the terms of the union as fixed by the British North American act; the move was an expedient, and in his opinion the House should not go into a Committee on Resolutions. After a very lengthy debate the motion was lost by 57 to 96.

The Governor General submitted to the House a copy of the correspondence between the Canadian delegates to London and Lord Granville, relating to the island of San Juan. His Lordship informed the delegates he had ascertained from Lord Clarendon that Sumner was authorized by the United States Senate Committee on Foreign Affairs, to make a report on the San Juan Convention of record, and that they should sanction its ratification by the President. Her Majesty's Minister at Washington was of the opinion that no reasons existed why the report should not be taken into consideration by the Senate during the present session.

In reply to the delegates' communication respecting the losses and damages sustained by the invasion of Canada by the Fenians, Earl Granville says a mixed commission will be constituted for the settlement of the British-American claims. Due notice will be given so that all parties might present their claims.

HALIFAX, June 12.—In the Assembly last night, Attorney General Wilkins moved a resolution authorizing an appeal to the English Courts to test the legality of the Confederacy. He said he did not propose that a delegation should be sent to England, but would prepare a case and submit it to eminent counsel. If their opinion was favorable he would take steps to bring the question involving the legality before the Courts. Troff and Smith, two delegates intended to be sent to England, opposed the resolution on the ground that already eminent counsel, Sir Roundell Palmer, Vernon and Harcour had said the act was legal. Wilkins said it was not pleased before these counsel fairly and Sir Roundell Palmer was prejudiced against Nova Scotia. After a long debate, in the course of which annexation sentiments were freely uttered, the question was taken on the resolution. The vote was 16 for, against, 14.

Notice was given of a motion to reodse the vote. The House to-day, rescinded the vote on Wilkins' resolution, and consequently there will be no appeal to England on the law as to confederation.

Mississippi Affairs.

JACKSON, June 13.—The military commission in the case of Yerger is progressing slowly. The right of General Granger, president of the commission, to sat on the case was challenged by the defense, on the ground that he had formed an opinion as to the guilt of prisoner. The challenge was sustained and Granger withdrawn. General Swift is now president. The court thereupon entered a plea against the jurisdiction of the court, on the grounds that Yerger is a citizen, having never been in the army or navy of the United States, and that his offense being against the laws and Constitution of the United States he cannot be tried except by being indicted before a grand jury, and that the commission has not the right to try him except on such indictment.

Richmond.

RICHMOND, June 13.—The pirates in the recently projected duel near Fi[illegible] and have disappeared with their seconds. It is supposed they have gone to North Carolina to have their fight out.

CHICAGO, June 12.—Hooper, Marshall, Kelly, Maynard, Moorehead and Crooks, members of the House Committee of Ways and Means, arrived at this city to-day, en route to the Pacific Coast.

ALBANY, June 12.—The Typographical Union after remaining in secret session, at an early hour this morning adjourned.

MEMPHIS, June 13.—W. M. Davidson, a clerk of Mitchell, Hoffman & Co., furniture dealers in this city, was murdered last night.

ALTOONA, June 12.—Thos. Duke, another incendiary, has been arrested. Four are now in jail and three at large.

Rosine Congratulations.

PHILADELPHIA, June 13.—At the Curtin dinner last evening, Count Bodisco, who responded as the agent of Russia, in a few remarks read the following: "To Count Bodisco, Charge d'Affairs:—Sir: The sympathies of our august sovereign towards the American people and for their destinies are too active and sincere to permit his majesty's not once again expressing them on the advent of Grant to the presidency of the Federal Union. By order of the Emperor you are instructed to become the interpreter of these sentiments to the President. The services which General Grant has rendered to his country under such circumstances warrant the best hopes for the future of the great work to which he had the glory to contribute in a manner so efficient. His works of pacification and national prosperity have not met with and will not anywhere meet with more cordial and more steadfast sympathies than in Russia. (Signed) ALEXANDER, Czar of Russia."

Duel in North Carolina.

RICHMOND, June 13.—A duel was fought on Saturday afternoon between Capt. M. E. Cameron, editor of the Petersburg *Conservative* and a rebel, and W. Hughes, contributor to the Richmond *Journal*, a Republican, in consequence of an article denouncing Hughes. The fight took place in North Carolina, sixteen miles from the Norfolk and Petersburg railroad. The weapons used were pistols. Cameron was struck in the breast, the ball striking a rib and glancing. Hughes demanded another fire, but the surgeon pronounced Cameron unable to deliver another shot. Hughes then declared he was satisfied and the affair ended. Cameron's wounds are severe but not considered dangerous.

The Berrin Jubilee.

BOSTON, June 13.—There is an immense influx of visitors to attend the Peace Jubilee, crowding hotels and lodging houses, and streets. Several musical organizations from a distance have arrived; one from Chicago, reaching the city last night. A grand ball is to be given at the Coliseum on Thursday night, and is attracting attention. It promises to be a brilliant affair. Efforts will be made to induce President Grant to remain over Thursday.

Honors to Curtin.

PHILADELPHIA, June 13.—The Board of Directors of the Union League gave a dinner to Gov. Curtin and suite on Monday at Philadelphia, in the Union League house. The Joint Committee of the City Council on the reception of Gov. Curtin, have procured a special car from the Pennsylvania railroad company, and with Mayor Fox, will accompany Curtin to New York on Wednesday. He sails for Europe on Thursday.

South America.

NEW YORK, June 13.—A letter from Rio Janeiro dated May 8th, says the emancipation of the slaves is being strongly advocated by a number of prominent citizens of Brazil. Count Eu had arrived at Ascunsion and found the army completely demoralized. Lopez remained among the Cordilleras and was growing stronger every day, while the allies were unable to move, losing strength the longer they remain idle. Nothing had been heard from McMahon.

John Mitchell in New York.

CINCINNATI, June 13.—John Mitchell, the Irish patriot, spoke at Mozart Hall to-night to an audience. His subject was the disestablishment of the Irish church, which he said the people of Ireland did not care for. Their wrongs would not be remedied. The plan proposed by Gladstone and supported by the liberals would afford no relief.

Colfax in New Jersey.

NEW YORK, June 13.—Vice President Colfax visited Morristown, New Jersey, on Friday. He was given a fine reception, and was serenaded in the evening. Having been introduced to the people by Gov. Randolph, he made a brief address in which he declined to discuss political questions.

BY ATLANTIC CABLE.

LONDON, June 11th—Midnight.—The *Times*, in speaking of the action of the Lords on the Irish Church Bill, says the Marquis of Salisbury's anticipation of the situation of the press is now realized. We are in a crisis, one of those rare and great occasions where the national mind is fully declared. The Lords must defer to the country, otherwise the machinery of Government cannot be carried on, owing to a fixed and unalterable Constitution. The House of Peers must yield.

Immense Tory demonstrations are being held to-day in various parts of the kingdom. At Manchester over 20,000 persons were present. Resolutions protesting against the passage of the Irish Church bill were passed. A monster petition, embodying the substance of the resolutions, was sent to the Earl of Derby for presentation to the House of Lords at Liverpool. Fifty thousand people were present. Speeches were made by distinguished persons. Resolutions against the disestablishment of the Irish Church were unanimously adopted.

Dispatches from Calcutta, dated June 9th, state that a severe cyclone occurred there and in the vicinity, doing great damage to buildings in the city and shipping in the harbor. Though very slight, the cyclone was still raging at last accounts.

LONDON, June 13.—A large number of arrests were made in Paris yesterday, but the tenor of the latest dispatch is reassuring. They state that confidence was returning. Up to midnight the public order remained undisturbed. The troops patrolled the streets and were frequently cheered by the citizens.

PARIS, June 12.—Tumults in the streets continued all night, but met no resistance. Arrests continue. The streets have become more tranquil, but a strong detachment of military were posted in convenient places to prevent an outbreak. When the Emperor and Empress drove through Montmartre yesterday, they were entirely unattended. About two hundred arrests were made last night. The populace generally assisted the troops to preserve order, and the streets were cleared by 1 o'clock. No outrages committed.

PARIS, June 12.—Ishmael Pasha arrived to-day.

MADRID, June 12.—The Cortes is discussing a proposition for a Regency.

In the Cortes yesterday Novaris advocated the election of Duke De Montpensier to the throne. He declared his preference for immediate and final action on the part of the Cortes to that effect.

Marshal Prim defended the present Government of Mexico, and announced that diplomatic relations would soon be renewed with President Juarez.

The Duke of Montpensier has entered Spain and is now in Andalusia.

NEW YORK, June 12.—The *Herald's* special from Cordova, Spain, says a great meeting of Republicans was held to-day for the purpose of protesting against a return to monarchy. Deputies were present from every Southern Province, and speeches of a revolutionary character were made. During the proceedings the Spanish flag was entwined with that of the United States. The assemblage shouted for America and for Gen Grant. About 5,000 were present. While the meeting was in session the military and civic guards interfered and created a panic.

VIENNA, June 11.—A decree is published forbidding the civil authorities from enforcing Ecclesiastical sentence without the voluntary consent of the party involved.

Mrs Dr. Walker Offers to Go as Secretary of Legation with Gen Sickles

A Washington dispatch to the New York *Herald* dated May 24th, says: Walker the famous female M. D., was at it again to-day—that is, on a hunt for office. Her scene of operation was the State Department, where she appeared at an early hour in full bloomer rig, and smiling her sweetest. The following is said to be about what took place between the chief of the Pictorial Department and Doctress Walker:

Secretary Fish—Good morning, Mrs. Doctress Walker; what can we do for you to-day?

Doctress Walker—Good morning Mr Secretary. I have come to the conclusion that a diplomatic appointment will suit me better than various others which I have in view, and will thank you, therefore, to have me appointed Secretary of Legation to Spain, as I understand that is the only diplomatic post of consequence now vacant.

Secretary—Well, Mrs. Walker, now the fact is I don't exactly know whether you would do for that position. Do you speak Spanish?

Doctress Walker—No, not at present; but I can readily qualify myself in that respect.

Secretary—Well I am sorry to tell you, Mrs. Walker, that it has been determined to send no one to Madrid, who does not speak both Spanish and French fluently.

Doctress Walker (sharply)—Does Sickles speak Spanish?

Secretary (placidly)—It is understood that he is an accomplished linguist.

Doctress Walker (vehemently)—It is not a question of languages, sir, but a question of the recognition of the rights of women. I can accomplish myself as readily as anybody else; (and pointedly) in the meantime I would like to accomplish the object of my present visit to your Department.
